

Alternative Fuels

Whereas: Burning fossil fuels continues to increase the effects of global warming, as well as land, air and water pollution, and

Whereas: there is war and human misery generated as a byproduct of continuing the extraction, processing and profits of oil, and

Whereas: research has developed alternative fuel processes that are sustainable and environmentally friendly.

Therefore Be It Resolved: That CAW Local 200 Retired Workers chapter lobby the Federal and Provincial governments to provide the necessary research and development funding to expedite a conversion to alternative fuels, excluding bio-fuels, and

Be It Further Resolved: That this Made in Canada solution include manufacturing incentives for the creation of Canadian jobs that provide a “Just Transition” for those workers affected by this move to a sustainable society.

Respectfully Submitted by, CAW Local 200 Retired Workers Chapter
